What is **SNUG** and the **Annual** **SNUG Conference?**

ABOUT SNUG

The Soft Network Users Group (SNUG) was established in 1992 to provide a forum where SCC Soft Computer users could freely discuss SCC's products and provide a powerful voice to represent what SCC users need and want from their laboratory information management systems.

For over 30 years, SNUG has promoted the open exchange of ideas and suggestions, lessons learned, and best practices. The annual SNUG conference offers unique educational and networking opportunities, as well as time to preview the latest products and services from many vendors during the SNUG vendor fair and reception.

Join numerous laboratory professionals who gather in Florida each year to discuss ways to improve turnaround time, streamline workflow, and get the most from their SCC systems.

OUR GOAL: MAXIMIZE YOUR ROI

SNUG recognizes the financial commitment it takes to exhibit and seeks ways to enhance the exhibit experience for participants. The 2026 SNUG conference offers a venue for direct, one-on-one meetings, product education, and group presentations to new and existing customers.
